

WHAT WE DO

At AIRIA Development® Company, we create premier residential master-planned communities (MPC) where houses are made homes and residents of all ages can live, work, play, gather and build memories. With a keen eye for design, we enhance the natural beauty of the areas we develop while keeping our focus on what is most important to home buyers – an extraordinary place they are proud to call home with a prime location, desirable amenities, acclaimed schools, various housing styles and abundant opportunities to make the most out of life.

COMPANY HISTORY

Originally named Aliana Development Company, AIRIA was formed by the same leadership team that crafted Aliana® into one of the nation's most successful master-planned communities. After purchasing more land to develop, AIRIA Development Company was created in 2018 to bring Aliana and future communities together under one unified brand.

DEVELOPMENT LEADERSHIP

Lead by President Travis Stone, the AIRIA Development team brings decades of combined experience in successful land development of master-planned residential environments.
